

RULEXX PLUS SAE 10W60 API SP

DESCRIPTION:

Rulexx Plus SAE 10W-60 API SP race oil products are suitable for use in all modern cars and are particularly recommended for high performance engines where their exceptional shear stability and wear protection help to maintain consistent power output and reliability. The fully synthetic base fluid ensures that the products are thermally stable and extremely resistant to oxidation, even when stressed to the extremes of endurance.

APPLICATION:

SAE 10W-60 has been designed to help provide the extra protection that older engines can demand. It is suitable for most older vehicles including gasoline and Diesel (without Diesel Particulate Filter) engines. 10W-60 oil is a highly viscous, fully synthetic motor oil designed for extreme-performance driving, racing, and heavily stressed engines.

SPECIFICATIONS:

Rulexx Plus SAE 10W-60 API SP fully synthetic motor oil meets the requirements of all major car manufacturers and the following standards:

SAE 10W-60, ACEA A3/B4, API SP, API SN PLUS

Always observe the operating instructions of your vehicle with regard to the prescribed engine oil viscosity and the predetermined specifications.

BENEFITS:

- Excellent low temperature flow characteristics protect valve gear, even in the most severe USA and European winter conditions, and also improve cold start performance.
- The full synthetic formulations lead to very low volatility, and this in turn ensures minimum piston deposits and the lowest possible oil consumption and maximum exhaust catalyst efficiency.

TYPICAL PROPERTIES:

TEST	FREQUENCY	RESULT
Appearance	Visual	Bright & Clear
Color	ASTM D 1500	Neutral
Viscosity @40°C	ASTM D 44	REPORT
Viscosity @100°C	ASTM D445	21.9 - 26.1 cSt
Viscosity Index	ASTM D 2270	140
Density @15°C	ASTM D 1298	0.886
Pour Point	ASTM 97	-33°C
Flash point	ASTM D 92	225°C
