

RULEXX PLUS STEERING FLUID 202

DESCRIPTION:

Rulexx Plus Steering Fluid is a high-performance synthetic hydraulic fluid formulated to meet the sophisticated technical requirements of modern steering and hydraulic systems. Suitable for All types of Power Steering systems (Hydraulic and Electric). Level control systems. Hydro-pneumatic suspension systems. Stability and central locking systems.

SPECIFICATION:

FORD WSS-M2C204-A2

APPROVAL:

HYUNDAI 0023-19017, OPEL B 040 2012
VW TL 52 146.01 (G 004 000)

RECOMMENDATION:

ORSCH 000 043 206 56, PORSCHE 000 043 305 74,
AUDI/VW G 004 012, SAAB 93160548,
LAND ROVER LR003401

BENEFITS:

- Provides outstanding protection for steering components against wear and corrosion.
- Helps make steering movements smoother and more responsive.
- Contains special additives that protect metal parts from continuous friction.
- Exceptional stability in both very high and very low temperatures.

TYPICAL PROPERTIES:

TEST	FREQUENCY	RESULT
Appearance	VISUAL	VISUAL
Color	ASTM D 1500	DARK GREEN
Kin. Viscosity @ 100°C	D 2270	6.24 mm ² /s
Kin. Viscosity @ 40°C	D 2270	19.73 mm ² /s
Viscosity Index	D 2270	306.4
Density @15F	D 97	0.8445 g/cm ³
